Label Amendment – Addition of target organism claims

Product Name: Hitman Spray EPA Registration Number: 9402-14 Application Date: June 6, 2014 Decision Number: 492004

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Language to be used if the label is adding or contains a website: Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e).

Please note that the record for this product currently contains the following CSFs:

- Basic CSF dated 06/06/2014
- Alternate CSF 1 dated 06/06/2014
- Alternate CSF 2 dated 06/06/2014

{The following text will appear on product/market label only when Human Immunodeficiency Virus Type 1 (HIV-1) or Hepatitis B Virus (HBV) are listed on label.}

# Special Instructions for Cleaning and Decontamination Against HIV and HBV on Surfaces/Objects Soiled with Blood/Body Fluids

This product kills HIV-1 and HBV on precleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (e.g. hospitals, nursing homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), and [Human] Hepatitis B Virus (HBV).

**Personal Protection:** When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks, and eye coverings.

Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product.

**Contact time:** Spray [this product] [6-8 inches from] [on] surface until thoroughly wet. Let stand for 5 minutes

**Disposal of infectious materials:** Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

\*Soft Surface [Fabric] Sanitizer: To [Kill][Control][reduce] bacteria on soft surfaces [fabrics]. [Not recommended for use on fabrics that may waterspot, such as silk, suede, or leather. Always, test a small, inconspicuous area before use.] Spray [this product] [6-8 inches from] [on] surface until moderately damp. [{or:} Spray a light even coating on fabric until wet.] [To kill [>99.9% of] bacteria [that cause odors]]. DO NOT SATURATE. Fabric must remain wet for 30 seconds [sec]. Let air dry. [For difficult odors or heavy fabrics, repeat application]. [Reapply as necessary]. [For highly soiled surfaces, clean excess dirt first.] [Wash treated clothing before using -or- wearing].]

### \*\*Residual Self-Sanitizing:

To sanitize for 24 hours against [bacteria][including][Staphylococcus aureus, Enterobacter aerogenes, and Community-Associated Methicillin Resistant Staphylococcus aureus (CA-MRSA)] on hard, non-porous surfaces. Spray [this product] [6-8 inches from] [on] surface until thoroughly wet. Let stand for 5 minutes. Wipe dry. [No rinsing required.]

This product can be removed with soap and water. [If soap and water is used,] repeat residual self-sanitizing directions to maintain 24 hour sanitization.

**To Inhibit [Control] Mold and Mildew**: For use on hard, non-porous surfaces. Clean surface first, then spray surface until thoroughly wet and allow to air dry. Reapply weekly.

[Use of this product on a floor or flooring surface is not recommended and may cause a slipping hazard.]

[This product contains Hydrogen Peroxide, which may cause temporary skin whitening after prolonged contact. Wash hands with soap and water.]

This product [name brand] [is compatible with] [will not harm] [surfaces including] (surfaces will be selected from the following) acrylic, aluminum, brass, ceramic, Corian®, glass, granite, LDPE, [brushed] nickel, painted surfaces, polycarbonate, polypropylene, polyurethane varnish, PVC, silicone rubber, stainless steel, vinyl, vinyl rubber, glazed porcelain and similar hard, [finished] nonporous surfaces. [Spot test before using]
